# Own a *healthy future*

**It's all about you. Maybe someone told you it wasn't, but we recognize it really is.**

You are part of a team that keeps great foods and all the necessities of life on hand for our friends and neighbors – from fresh cut fruit for quick breakfasts to this new territory called “lunch at home” and a return to family dinners: you delight our customers at every turn. The work you do helps us be that locally great grocery store that people count on for everything they need.

**At Albertsons Companies, we take serving YOU seriously because we value you.**

You are the difference we make in our communities. Your compassion for one another and keeping communities fed, your helping hands when someone needs a new job or to learn what you already know, your teamwork – it all adds up to acting like an owner. And the way you welcome everyone into our stores...forget about it! No one does it better than you!

We're one team, and we're proud to work for and with you, and help make your decisions about Health and Wellness a little easier.
